

MADHU VANGA

SDET / Automation Test Engineer

Mobile: 7730038541 | Email: madhuitsdet@gmail.com | LinkedIn: linkedin.com/in/vanga-madhu-1931b0233 | GitHub: github.com/madhuitsdet/VangaMadhu-git

PROFESSIONAL SUMMARY

SDET / Automation Test Engineer with 4.6 years of experience in Python-based test automation, API testing, performance testing, and telecom/5G core validation. Skilled in Selenium WebDriver, Robot Framework, Pytest, Postman, SoapUI, JMeter, Jenkins, Git, Kubernetes, and Linux. Experienced in building scalable automation frameworks, executing regression and integration testing, validating PCF/BSF 5G components, analyzing defects, and supporting CI/CD-based quality engineering.

TECHNICAL SKILLS

Programming	Python, SQL
Automation	Selenium WebDriver, Robot Framework, Pytest, Page Object Model, Data-Driven Testing
API Testing	Postman, SoapUI, REST API Testing, service-level validation
Performance Testing	JMeter, Load Testing, Stress Testing, Scalability Testing, Resiliency Testing
DevOps / CI-CD	Jenkins, Git, GitHub, GitHub Actions
Cloud / Containers	Kubernetes, Linux, Helm basics, pods, namespaces, deployments, nodes
Test Management	JIRA, ALM Octane, test case design, defect lifecycle management
Testing Types	Functional, Regression, Sanity, Smoke, Integration, System, End-to-End, UAT
Domain	Telecom, 5G Core, PCF, BSF, NFV/VNF, SDN-NFV

WORK EXPERIENCE

Amdocs, Pune, India | Software Test Engineer | January 2024 - Present

- Built and maintained Python automation frameworks using Robot Framework and Pytest for functional, sanity, and regression testing.
- Automated 300+ test cases and reduced manual regression effort by 40% through reusable libraries, test data handling, and reporting utilities.
- Validated REST/API and service-level flows using Postman and SoapUI across backend interfaces and integration points.
- Executed load, stress, scalability, resiliency, and alarm testing with JMeter for multi-million-user PCF/BSF performance scenarios.
- Verified Kubernetes deployments by checking pods, services, logs, namespaces, nodes, HPA behavior, and Linux troubleshooting outputs.
- Tested 5G core PCF and BSF modules for subscriber policy decisions, QoS rules, service requests, IP binding, and session management.
- Analyzed end-to-end call flows across PCF, BSF, SMF, PA, and UE components in lab and virtualized environments.
- Tracked critical defects in JIRA from discovery to closure, working with developers to improve release stability and defect turnaround.
- Created execution reports, dashboard evidence, and KT documentation to improve team handover and validation consistency.

Functional Test Engineer | January 2022 - January 2024

- Executed System Testing, Integration System Testing, End-to-End testing, and UAT for AT&T SDN-NFV transformation workflows.
- Validated NFV/VNF scenarios including VNF modeling, network creation, orchestration, and configuration workflows.
- Prepared test plans, test procedures, test data, and execution evidence based on functional and technical requirements.
- Performed fabric automation checks, device configuration validation, and backup verification activities.
- Managed defects in JIRA and coordinated with cross-functional teams to support timely resolution and quality delivery.

PROJECT EXPERIENCE

Web Application Automation

- Automated end-to-end UI test scenarios for e-commerce, job search, and recruitment applications using Selenium WebDriver, Robot Framework, and Pytest.
- Implemented Page Object Model and data-driven testing to improve reusability and reduce script maintenance effort.
- Integrated automation suites with GitHub Actions and Jenkins to support continuous testing in CI/CD pipelines.

EDUCATION

Bachelor of Technology, Vidya Jyothi Institute of Technology, JNTUH Hyderabad | CGPA: 8.74/10 | 2018 - 2021

Diploma, Abhinav Hi-Tech College of Engineering and Technology, SBTET | 76.21% | 2015 - 2018

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02)
- Microsoft Azure Fundamentals (AZ-900)
- Software Testing Certification - QSpiders

ACHIEVEMENTS

- Silver Medalist, Amdocs AQE Skill Olympics - Amdocs, 2023.
- Key Player Award for project transition contributions - 2024.
- Recognized for contribution to AT&T Openet policy delivery for AON ISSU and ISSR - Dec 2025.
